receiving over a network a customer authorization permitting at least a second customer to view information on at least a portion of the first customer's purchases;

receiving over the network a customer specification as to which customer purchases ~~may~~ information may be viewed by the second customer; and

providing an electronic notification to the second customer, wherein the notification informs the second customer of the first customer authorization.

5. (Currently amended) The method as defined in Claim 1 4, further comprising transmitting over the network to the second customer information on the first customer's purchases.

6. (Currently amended) The method as defined in Claim 1 4, wherein the notification is provided in an e-mail message.

7. (Currently amended) The method as defined in Claim 1 4, wherein the notification is provided on a Web page.

8. (Currently amended) The method as defined in Claim 1 4, wherein the first customer authorization includes the second customer's e-mail address.

9. (Currently amended) The method as defined in Claim 5 8, further comprising including a one-use token in the notification if the second customer's e-mail address does not match any e-mail addresses stored in a customer database associated with the electronic commerce entity.

10. (Currently amended) The method as defined in Claim 1 4, wherein the notification includes a link to a page displaying information related to the first customer's purchases.

11. (Currently amended) The method as defined in Claim 1 4, further comprising allowing at least the second customer to view who has received authorization to receive information on the first customer's purchases.

12. (Currently amended) The method as defined in Claim 1 4, wherein the second customer provides authorization to view information on at least a portion of the second customer's purchases to persons who are authorized the first customer's purchases.

13. (Currently amended) The method as defined in Claim 9 12, wherein notifications are provided to those authorized to view the at least a portion of the second customer's purchases.

14. (Currently amended) The method as defined in Claim 1 4, further comprising providing a preview to the first customer of the specified purchase information that will be provided to the second customer.

15. (Currently amended) The method as defined in Claim 1 4, further comprising;
receiving an activation of a link included in the notification by the first customer;

providing information on the first customer's purchases to the first customer at least partly in response to the activation.

16. (Currently amended) The method as defined in Claim 4, further comprising transacting the first customer's purchases over the network.

17. (Currently amended) The method as defined in Claim 4, further comprising receiving over the network a customer authorization for the second customer to view the first customer's wish list.

18. (Currently amended) The method as defined in Claim 4, further comprising receiving over the network a customer authorization for the second customer to view the first customer's auctions.

19. (Currently amended) The method as defined in Claim 4, further comprising storing at least a first review from the first customer for a purchased item.

20. (Currently amended) The method as defined in Claim 4, further comprising allowing the second customer to view the first customer's reviews of items associated with customer purchases that the second customer is authorized to view.

21. (Currently amended) The method as defined in Claim 4, further comprising transmitting an electronic form to the first customer listing the first customer's purchases, wherein the first customer uses the form to specify which customer purchases may be viewed by at least the second customer.

22. (Currently amended) The method as defined in Claim 4, further comprising:

receiving a purchase order from the first customer; and

in response to receiving the purchase order, asking the first customer if the first customer wants to share information related to the purchase with others.

23. (Currently amended) A method of sharing with others information related to a user's purchases, the method comprising;

transmitting an electronic form intended to be displayed on a terminal associated with a first user, wherein the form includes a listing of at least a portion of the first user's purchases;

receiving over a network from the first user a selection as to which of the listed first user's purchases are to be shared with other users; and

Appl. No. : 09/715,850
Filed : November 17, 2000

receiving over the network information from the first user designating which other users may view the first user's selected purchases.

24. (Currently amended) The method as defined in Claim 20 23, further comprising sending an invitation to at least one of the designated users to view the first user's purchases.

25. (Currently amended) The method as defined in Claim 20 23, further comprising informing at least one designated other user of the identity of a reviewer selected by the first user.

26. (Currently amended) The method as defined in Claim 20 23, wherein the first user and a second user are customers of a first entity, and the selected purchases are shared with the second user.

27. (Currently amended) The method as defined in Claim 23 26, wherein the second user is informed as to which other users may view the first user's purchases.

28. (Currently amended) The method as defined in Claim 20 23, further comprising inviting at least a portion of the designated users allowed to view the first user's selected purchases to view at least a portion of the purchases of the second user.

29. (Currently amended) The method as defined in Claim 20 23, further comprising providing an interface to the first user so that the first user can edit the selection of the first user's purchases which are to be shared with the designated users.

30. (Currently amended) The method as defined in Claim 20 23, further comprising receiving at least a first rating from the first user for at least a one of the first user's purchases.

31. (Currently amended) The method as defined in Claim 20 23, further comprising receiving personal information from the first user that is to be shared with the designated users.
